Starting on the RS of your sweater, begin working the striped pattern in stockinette as follows:

**** Beginning with the body of the sweater, whether or not a row is worked in knit or purl depends on the location of the colored strands. Back-and-forth knitting is sometimes disrupted during color changes; for example, there will be instances when you will knit a row with Color A, turn the work, and Knit a row with Color B. This is done in order to maintain continuity of both the yarn and the stockinette stitch pattern.****
